

YOUR NEW FRIENDS

MYTHICAL CREATURES

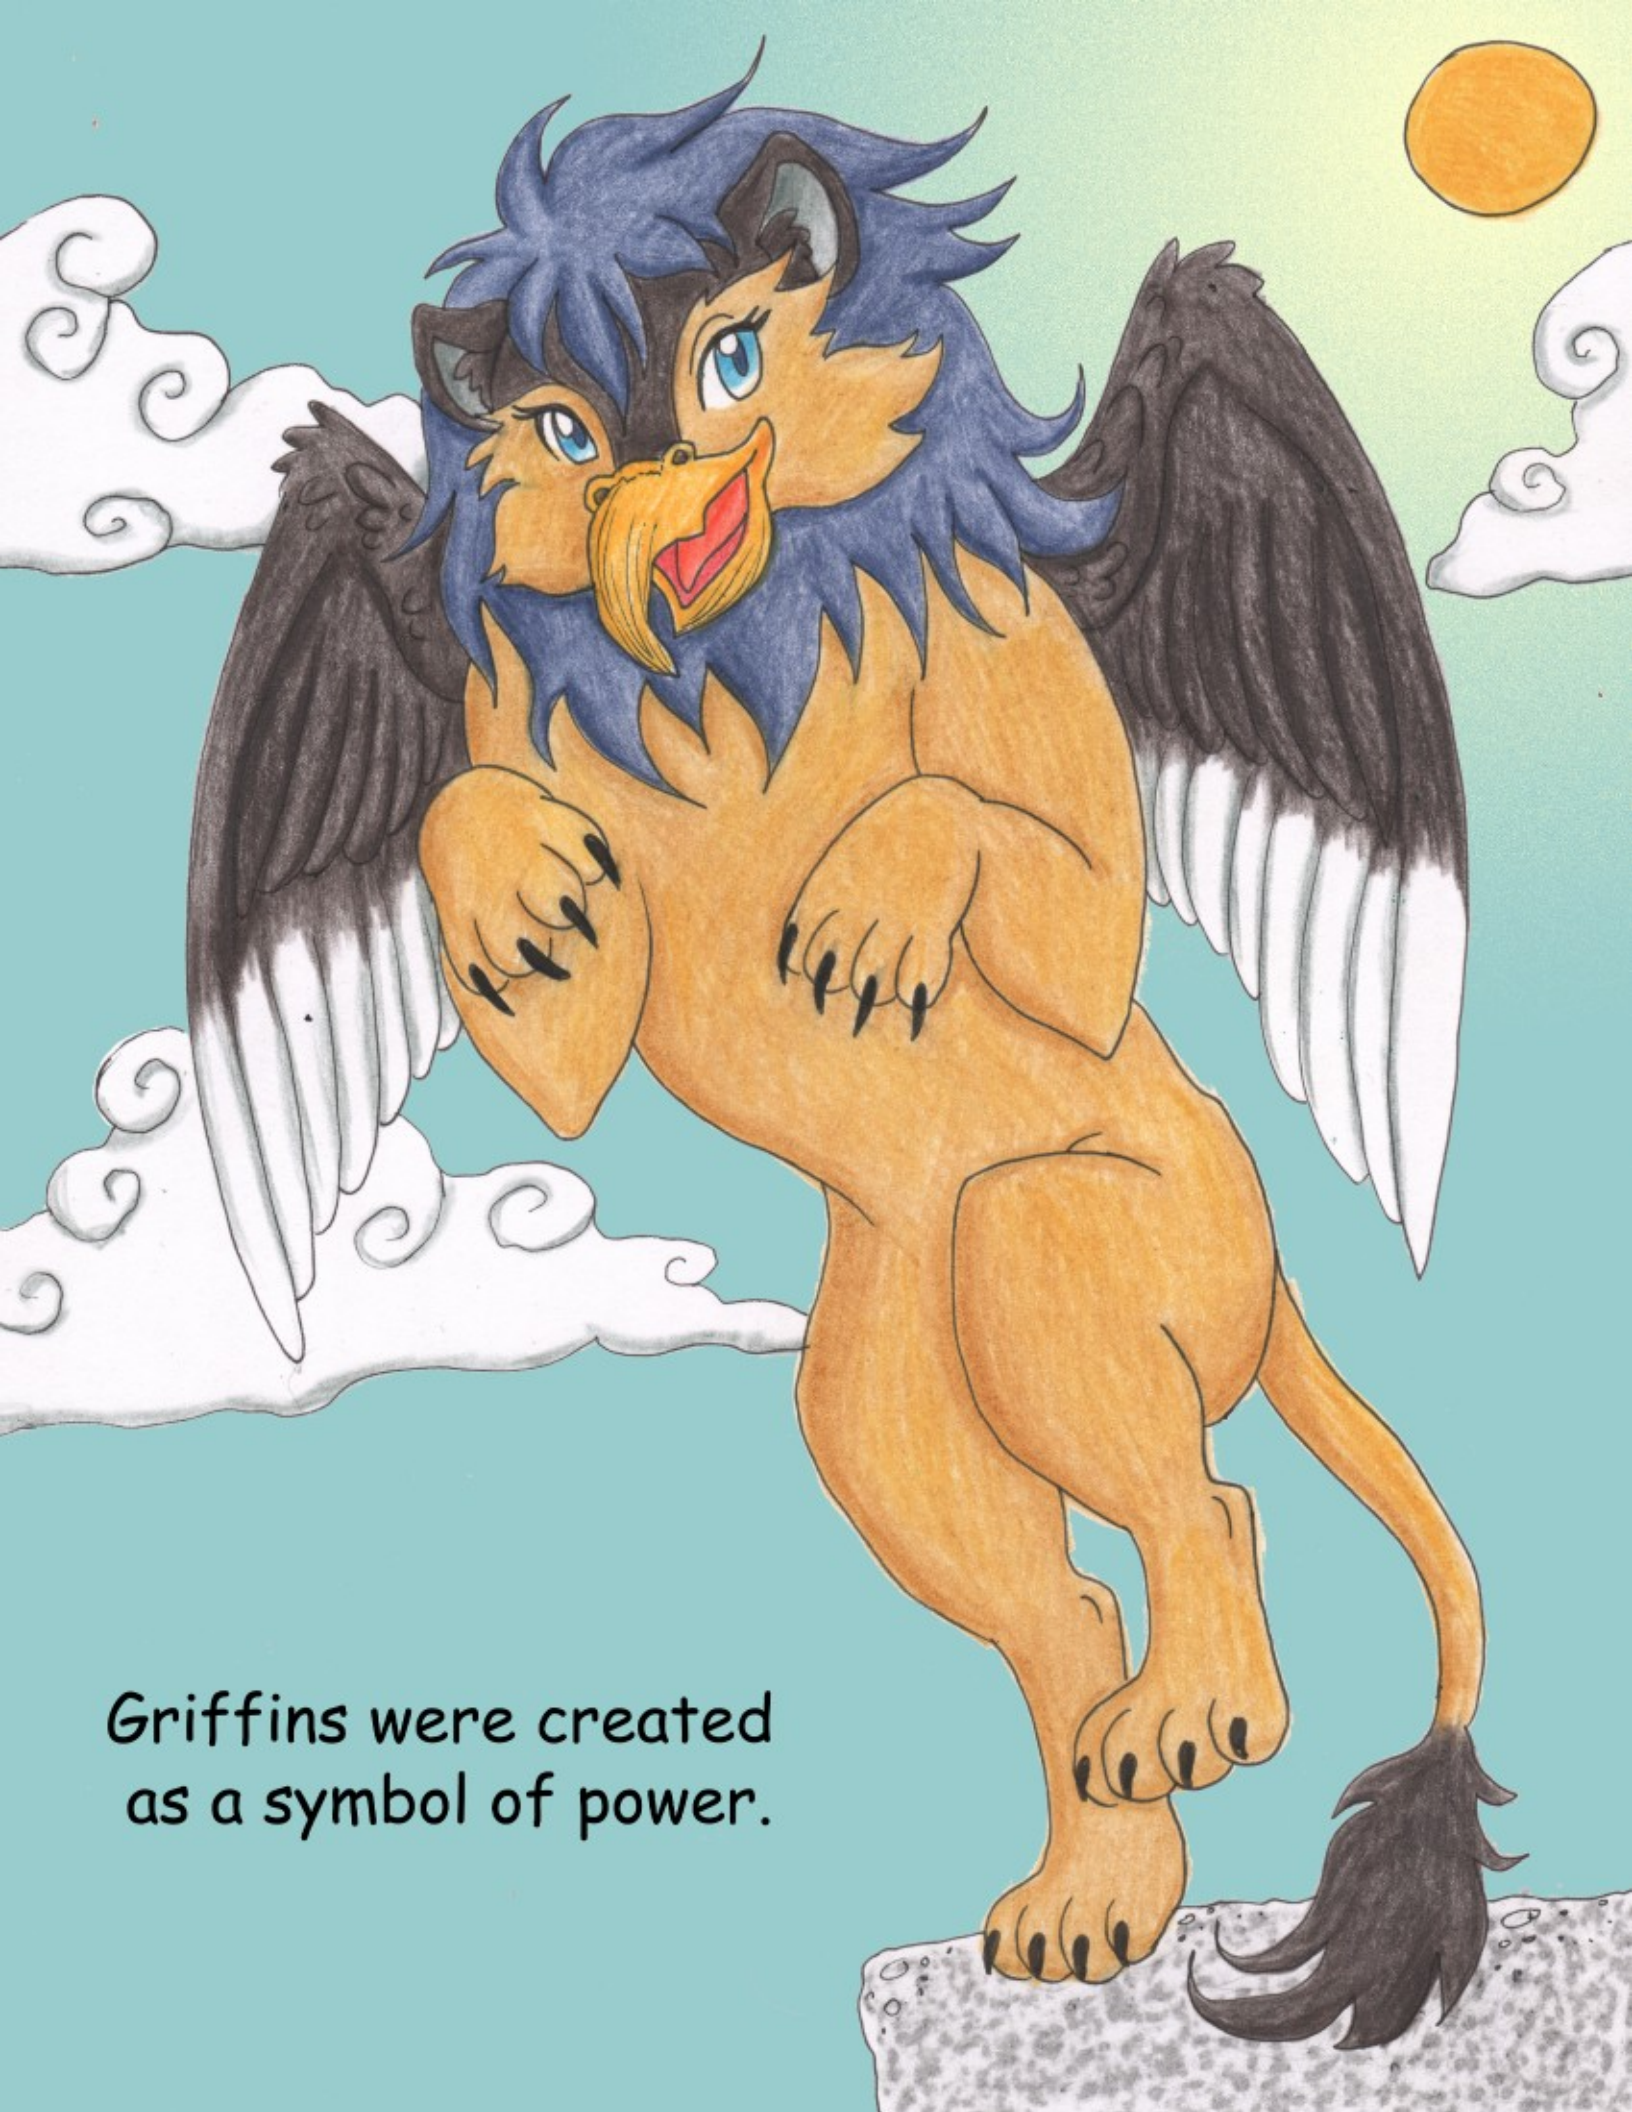

By Kai and Arianna Nakashima

Mythical creatures are the characters of mythology. Some are created from the imagination, while others are based on real creatures.

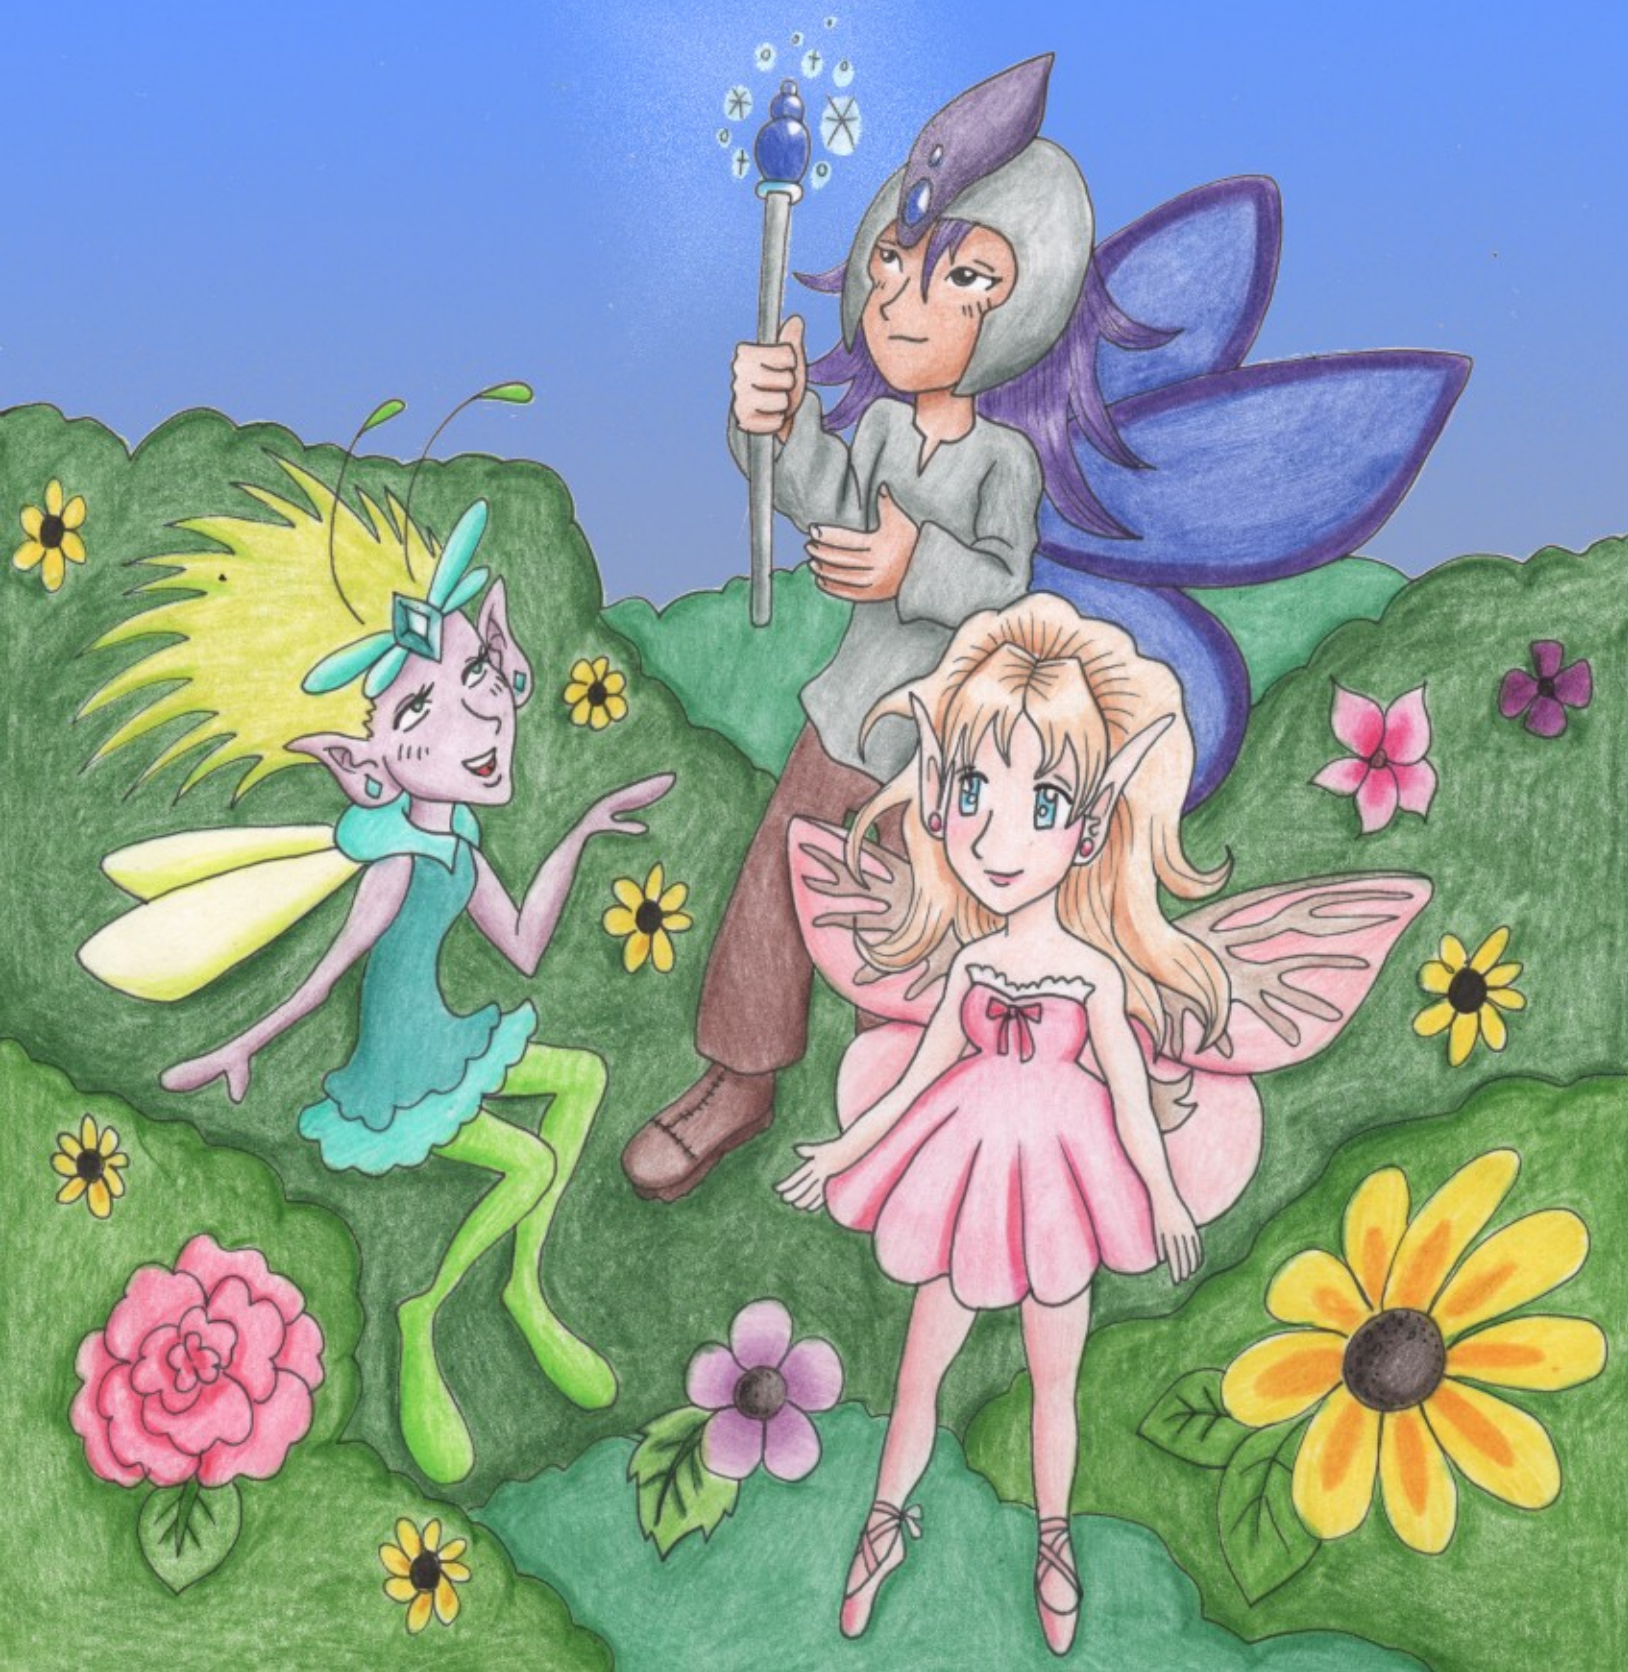

Some say dragons were inspired by dinosaurs. Serpents, wyverns, and sea monsters, are all different versions of these reptilian animals.

Griffins were created
as a symbol of power.

Fairies, faes, and pixies, are magical beings of light.
Some will even take care of your garden!

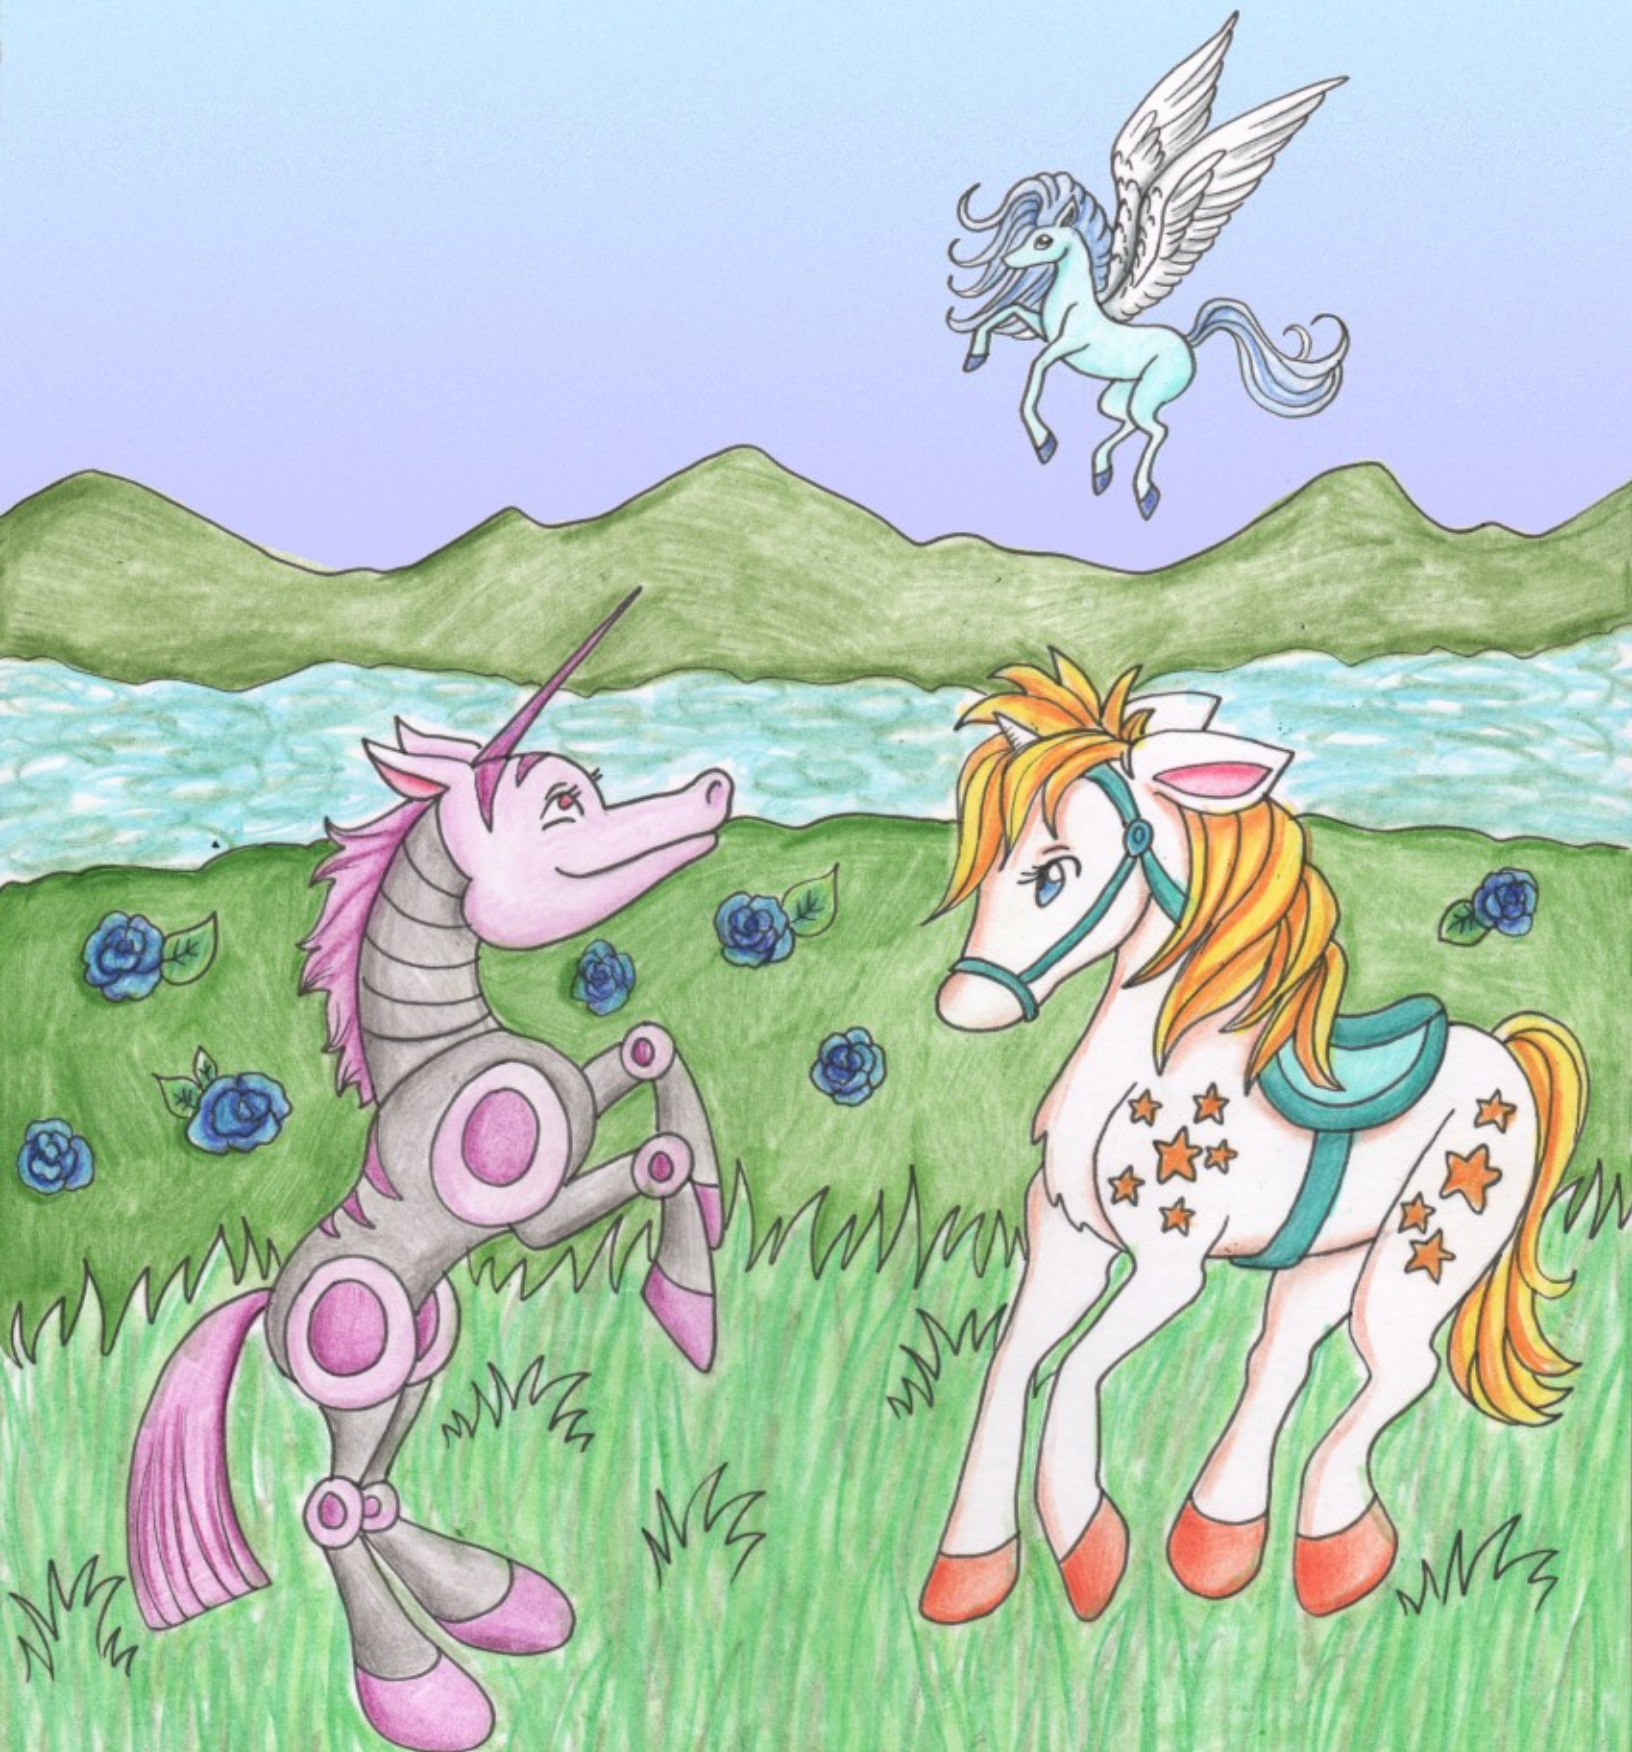

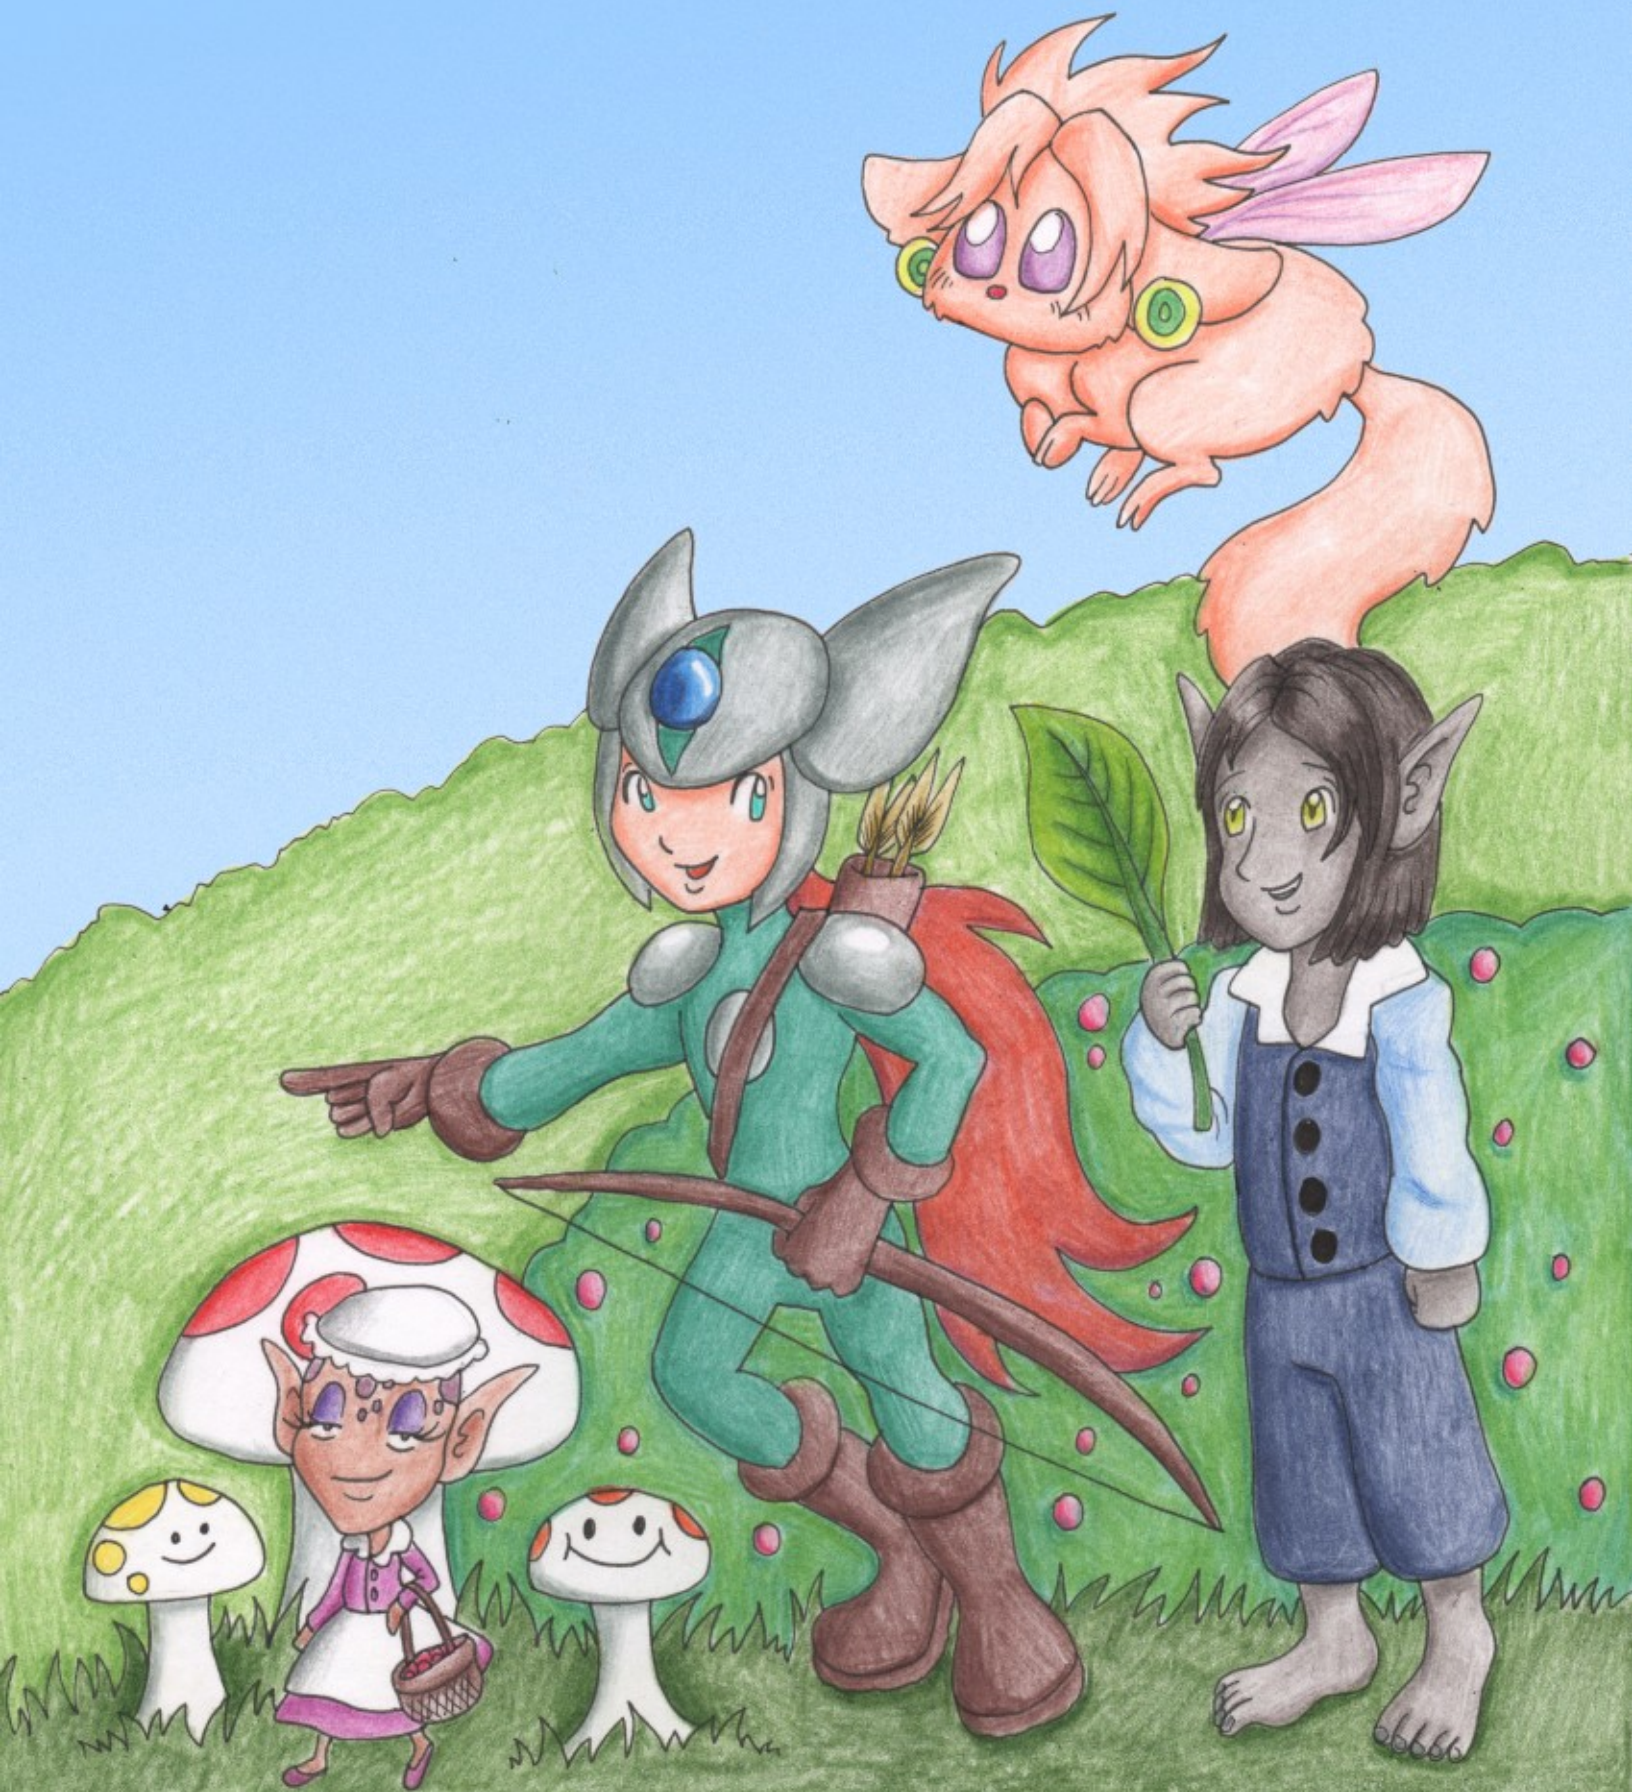

Goblins, devils, and zombies, are all
creatures of the night...

As are vampires! These beautiful,
mysterious creatures, can live
for thousands of years.

Unicorns have horns. Pegasus have wings.
Both are considered to be good luck!

Elvin people remember the secrets of nature!

Witches and wizards, are masters of
spellcasting and shape-shifting.

In Japanese mythology, kitsunes are spirits that care for the forest. Each of their tails stand for a super power they possess.

Ghosts are spirits that haunt cherished items or places. They come in all forms!

Mermaids are caregivers of the sea. They have many talents, including art and song.

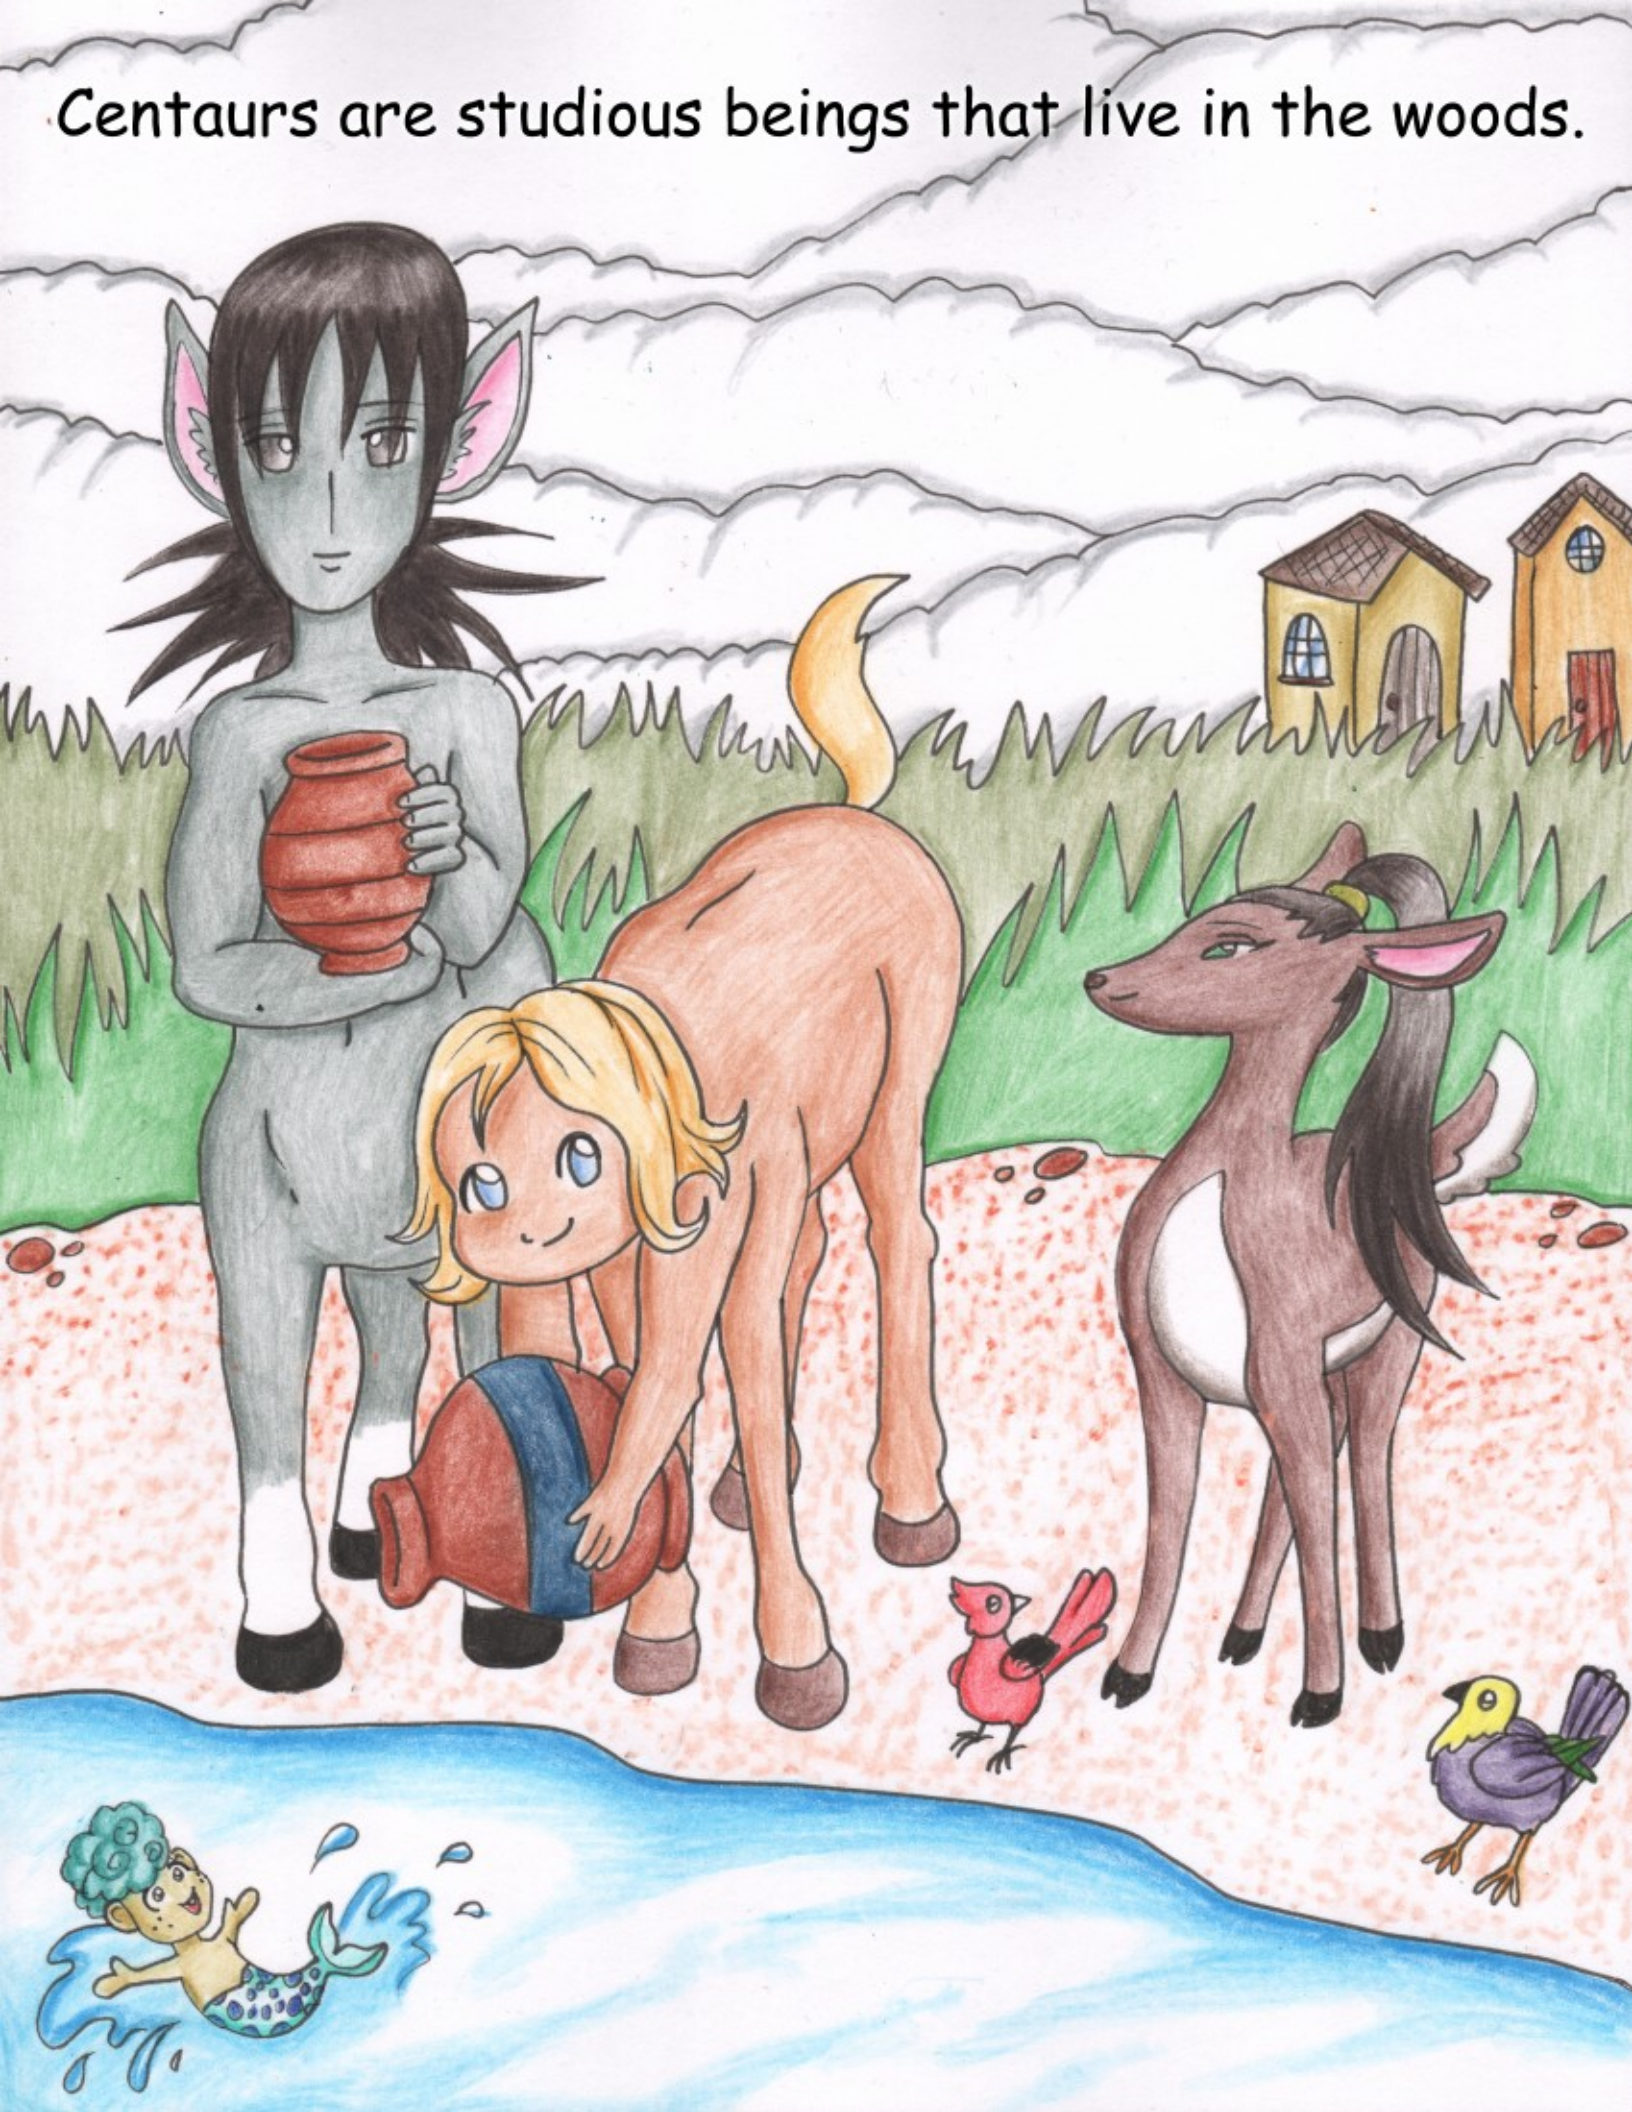

Phoenixes are immortal.
When a phoenix dies, it is reborn from its' ashes.

Aliens come from space, and live on other planets.
They are the characters behind many UFO stories.

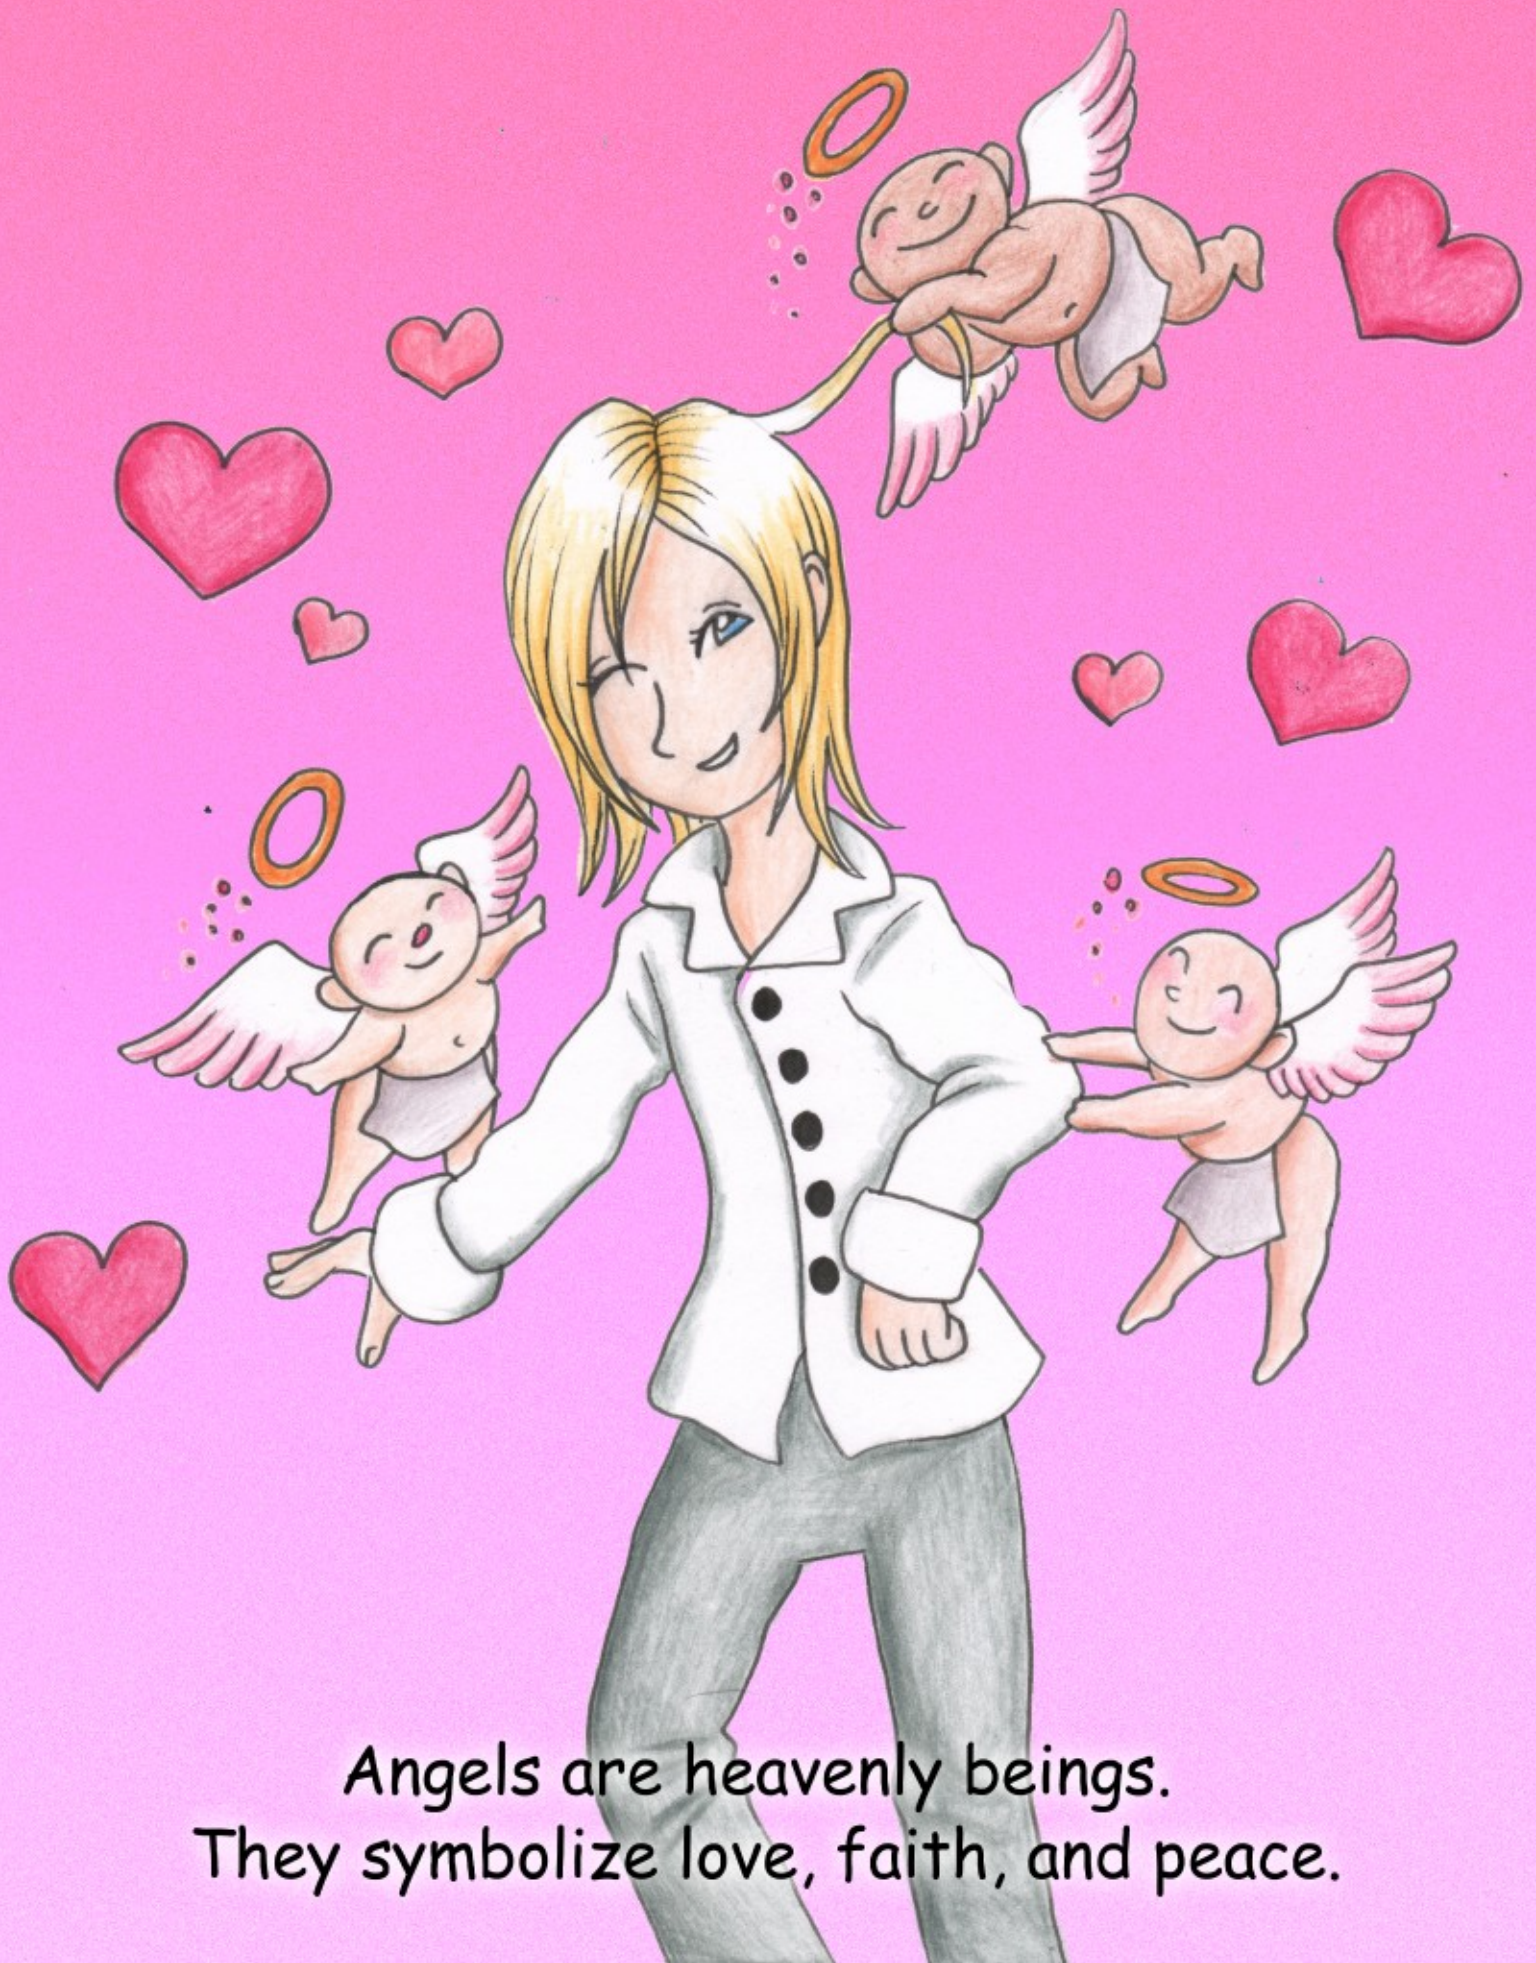

Centaur's are studious beings that live in the woods.

Anthropomorphic creatures are half-animal, half-human. Many fantasy creatures are based on having Anthropomorphic powers.

Angels are heavenly beings.
They symbolize love, faith, and peace.

There are so many different types of mythical beings from stories from all over the world. You can find magic, everywhere!

Which one is your favorite?

A big Thank you to our family.
We hope that this book continues to
inspire creativity and art.
